The screenshot shows a web application interface for managing charging stations. At the top, there's a header with the text 'Charging Station Management'. Below the header, there's a section titled 'Charging Station Information'. This section contains a table with the following columns: 'Station ID', 'Station Name', 'Location', and 'Status'. The table lists several stations, including 'Station 1' and 'Station 2'. To the right of the table, there's a search bar and a 'Refresh' button. The overall layout is clean and professional, with a blue and white color scheme.

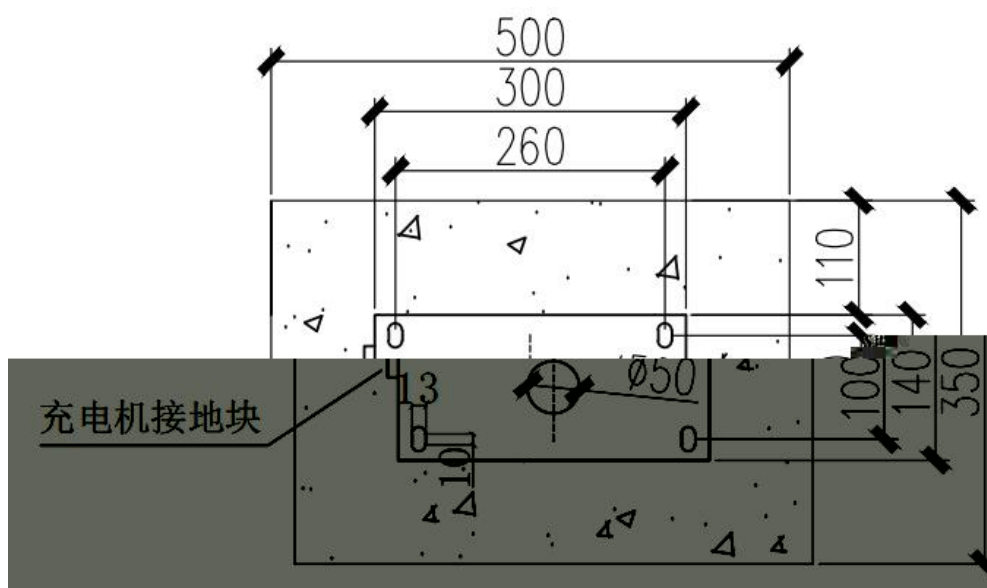

电池未充满，是否停止
